

NOVAPLAY II is a high performance, heavy duty, non-textured colored top coat. Novaplay II is designed to be used as a system with Novaplay Base Coat resulting in a slightly textured finish. This complete system is ideal for such sports as in-line skating, street hockey, basketball, shuffleboard, and other games where a smooth, non-skid coating is required.

Novaplay II has all toughness that has been expected from Novaplay, plus the feel that may be desired for all the above games. This system will provide an attractive surface that will stand up to heavy traffic.
